

21.04.2026

Dear Parents and Carers,

We are writing to inform you about the curriculum content your child will be studying during the **Summer Term**.

Our curriculum is carefully designed to be **ambitious, coherently planned, and sequenced**, ensuring that all pupils, including those with additional needs, build secure knowledge and skills over time. During the Summer Term, pupils will continue to deepen their understanding across subject areas, applying prior learning and further developing their independence, resilience, and readiness for the next stage of education.

To support transparency and enable parents and carers to engage meaningfully with their child's education, we have published detailed subject-specific curriculum information on our website. These overviews outline:

- The **key knowledge and concepts** pupils will study
- The **skills** they will develop
- How learning will be built upon and assessed

The Summer Term curriculum overview can be accessed here:

[Subjects - City Academy Norwich](#)

We also recognise the important role of **high-quality home learning** in reinforcing classroom teaching and supporting long-term retention of knowledge. Information about home learning expectations, tasks, and supporting resources is available via the following link:

Home learning is set with clear purpose and supports pupils in consolidating learning, developing effective study habits, and taking increasing responsibility for their progress.

We encourage you to review this information with your child and to contact the school should you require further clarification. Subject teachers and form tutors remain available to discuss any questions regarding curriculum content, support strategies, or individual progress.

Thank you for your continued support in working in partnership with the school to ensure that all pupils achieve their potential.

Yours sincerely,

Mr Ben Jones  
Deputy Headteacher

Every child, Same chance
